Colour Densitometers

C5 LT

The C5 LT is a portable colour reflection densitometer able to measure DENSITY, DENSITY DIFFERENCE, BALANCE and SPECIAL COLOURS. The last 5 measurements can be viewed simultaneously increasing the speed of measurement considerably.

C5

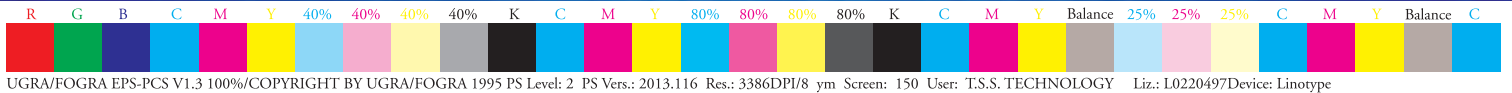

In addition to the C5 LTs measurement of DENSITY, DENSITY DIFFERENCE, BALANCE and SPECIAL COLOURS, the C5 also measures DOT GAIN, DOT SIZE and TRAPPING. As with the C5 LT the last 5 measurements can be viewed simultaneously.

DI 700

The Densieye 700 can measure DENSITY, DENSITY DIFFERENCE, DOT GAIN, DOT SIZE, BALANCE and TRAPPING. Although using identical optics to the C5 it has an interface more familiar with users of the Gretag range of densitometers.

Universal Specifications for TSS Densitometers

Aperture Size	1.6 - 3.3mm	Automatic Zero	✓
Measuring Time	0.05 seconds	Automatic Colour Recognition	✓
Filters	Status T	Repeatability D	+/- 0.001
Receiver	Photodiode	Linearity	+/- 1%
Measurements per Battery set	500,000	Batteries	2 x Alkaline AA
Output	USB	Weight	400 grams

Variable Specifications for TSS Range

Model	Dot Gain Presets	Integrated Statistic Function	No. of Readings Displayed
C5 LT	N/A	✓	5
C5	23	✓	5
DI 700	3	x	1
